# Urjita Mane

Third-Year Computer Engineering Student | Diploma in IT | Aspiring  
Full Stack Developer | Published Researcher | Internship Seeker  
Pune, Maharashtra, India

## Summary

I am a Third-Year Computer Engineering Student with a strong foundation in Information Technology (MSBTE Diploma – 83%) and hands-on experience in Web Development, IoT, and Software Development. Passionate about learning and applying new technologies, I have published research papers, built real-world projects, and participated in national-level events.

Currently, I am seeking an internship opportunity where I can apply my technical skills, contribute to innovative projects, and gain industry exposure while continuing to grow as a developer and researcher.

---

## Experience

### Infeanet Digital Solution And Web Media

#### Student Intern

June 2023 - July 2023 (2 months)

Pune, Maharashtra, India

As a Java Development Intern at Infeanet Digital Solution and Web Media, I gained hands-on experience in core Java programming, coding exercises, and working with essential development tools and libraries. During my internship, I successfully implemented projects such as Tic Tac Toe, N-Queens (using backtracking), and Sudoku Solver, which enhanced my problem-solving and logical thinking skills. The internship also provided me with valuable exposure to professional workflows, teamwork, and guidance from mentors, building a strong foundation for advanced Java concepts and frameworks.
